ED.M. PROGRAM IN SPECIAL EDUCATION
General Studies

I. PROGRAM DESCRIPTION: The master’s degree program in special education provides advanced graduate preparation for both certified special and general education teachers.

The program does not include coursework leading to teacher certification in special education. Students with an earned bachelor’s degree in a related field who are interested in initial teacher certification in special education should contact the Office of Student and Academic Services at 848-932-3232.

Course work and internship experiences address the instructional needs of students with mild and moderate disabilities. The 36-credit program is composed of a special education core (18 credits); a learning, cognition, and development (LCD) requirement (6 credits); educational statistics, measurement, and evaluation courses (6 credits); and electives (6 credits).

The 18-credit special education core is required of all students. This core develops competencies in the assessment and remediation of students with learning disabilities, collaborative teaching/consultation skills, and knowledge about New Jersey special education law.

The program does not include coursework leading to teacher certification in special education.
