

Getting Started with Secondary Data Analysis Workshop

Organizers

Dr. Emily Weiss
Rutgers University

Dr. Ann A. Connell
Rutgers University

April 23, 2026

At 11am – 12:30pm

GSE Room 124 and Zoom

10 Seminary Pl, New Brunswick, NJ, 08901

Lunch will be served

Interested in working with existing education datasets? This workshop introduces the fundamentals of secondary data analysis and its application to education research. We'll cover common sampling designs, analytic workflows, and key measurement issues. You'll also learn where to find high-quality data, how to navigate technical documentation, and see concrete examples of secondary datasets in use. Participants will leave equipped with the knowledge and tools to get started.

All levels of experience are welcome!
