

How Do I Pay the Infant Fare When Buying a Delta Ticket?

Infant fare payment processing on Delta Airlines tickets is handled at [✈️+1-855-629-\(\(1413\)\)](tel:+1-855-629-1413). Online booking platforms display infant pricing but frequently error during the payment step when attempting to process the discounted fare alongside your full-price adult ticket. Agents complete the infant fare transaction separately within your existing reservation, applying the correct percentage discount and linking both tickets under one shared confirmation. Processed infant payments include a separate e-ticket coupon for the child with all applicable tax and surcharge breakdowns documented.

Infant fare computation on Delta Airlines applies percentage-based pricing off the adult's fare basis code, with the exact rate determined by route type and cabin class. International infant fares include tax components calculated separately from the adult ticket, and lap infant versus seat-occupying infant designations alter both the fare amount and the document type issued.

Delta Airlines Infant, Lap Child, and Pet Travel — Requirements and Restrictions

Traveling with an infant, lap child, or cabin pet on Delta Airlines involves a separate set of eligibility rules, documentation requirements, and quota restrictions that apply on top of the standard booking process. These requirements differ by route — domestic and international itineraries have different fare structures and documentation obligations — and by the specific action being taken, whether that is booking, purchasing, ticketing, securing, holding, or applying a fare lock to the reservation.

- **Infant Fare Requirements:** On domestic Delta Airlines flights, infants under 2 years old can travel on a parent's lap without a separate ticket. International routes require an infant fare — typically a percentage of the adult base fare — to be added during booking. The infant must be listed in the reservation before the e-ticket is issued, and passport details are required for international infant ticketing. If the infant fare is not correctly applied during booking or ticketing, contact [✈️+1-855-629-\(\(1413\)\)](tel:+1-855-629-1413) to add the infant and confirm the correct fare is reflected in the reservation.
- **Lap Child Age Eligibility:** The lap child policy on Delta Airlines applies to children under 2 years old at the date of travel — not at the time of booking. Passengers whose child will turn 2 before or during the trip must purchase a separate seat ticket. The system sometimes flags bookings where the child is close to the age cutoff and requires manual age verification before the lap child addition is confirmed. If the lap child booking or secure step is blocked due to an age flag, reach an agent at [✈️+1-855-629-\(\(1413\)\)](tel:+1-855-629-1413) to verify eligibility and complete the reservation.
- **Cabin Pet Quota and Fee Requirements:** Delta Airlines limits the number of pets in the cabin per flight, and the available quota can fill before checkout is completed even when the pet option was visible during the initial search. The cabin pet fee must be paid and confirmed in the booking record before the space is reserved — the pet addition is not secured until the fee transaction is processed. If the pet quota is full on your flight or the fee transaction fails, contact [✈️+1-855-629-\(\(1413\)\)](tel:+1-855-629-1413) to check availability on alternative flights and complete the pet reservation.

Holding and Fare Lock for Reservations with Infants, Lap Children, and Pets

Placing a hold or fare lock on a Delta Airlines flight that includes an infant, lap child, or cabin pet requires the special passenger to be included in the protected reservation during the hold period — not added later at payment. If the hold or fare lock is placed without the special passenger and the addition is attempted at checkout, the fare protection may not cover the full booking cost. The hold duration for special passenger bookings follows the same expiry rules as standard holds, and the pet quota on the selected flight is not guaranteed during the hold period. An agent at

✦ **+1-855-629-((1413)) can place the hold or fare lock with the infant, lap child, or pet correctly included and confirm the full reservation is protected.**

Ticketing and Securing Special Passenger Reservations on Delta Airlines

Ticketing and securing a reservation with a special passenger requires the infant, lap child, or pet to appear in the booking record before the e-ticket is generated. If the ticketing or secure step completes but the infant or lap child is missing from the e-ticket, the boarding document will not reflect the correct passenger count — which can create complications at check-in. For pet reservations, the pet fee must appear as a confirmed line item in the ticketing record, not just as a pending charge. If the ticketing or secure confirmation does not correctly reflect all passengers and fees, contact

✦ **+1-855-629-((1413)) to correct the ticketing record before the departure date.**

Documentation Required for Infant, Lap Child, and Pet Travel

The following documentation applies to special passenger travel on Delta Airlines and must be available at check-in:

- **Infant and Lap Child:** Proof of age (birth certificate or passport) may be requested at check-in to verify the child's eligibility for the lap child fare. International travel requires the infant's passport.
- **Cabin Pet:** A health certificate issued by a licensed veterinarian within 10 days of travel is required. The pet carrier must meet Delta Airlines's size and weight requirements for cabin travel.
- **Documentation Conflicts:** If documentation requirements cannot be confirmed through the online booking flow, speak with a Delta Airlines reservations specialist at ✦ **+1-855-629-((1413)) to verify what is required for your specific route and complete the booking correctly.**

Frequently Asked Questions

How Do I Pay the Infant Fare When Buying a Delta Ticket?

Infant fare payment processing on Delta Airlines tickets is handled at ✦ **+1-855-629-((1413))**. Online booking platforms display infant pricing but frequently error during the payment step when attempting to process the discounted fare alongside your full-price adult ticket. Agents complete the infant fare transaction separately within your existing reservation, applying the correct percentage discount and linking both tickets under one shared confirmation. Processed infant payments include a separate e-ticket coupon for the child with all applicable tax and surcharge breakdowns documented.

Can I Add an Infant to an Existing Delta Booking Online?

Online infant additions to existing Delta Airlines bookings can be escalated to agents at ✦ **+1-855-629-((1413))**. The modification portal restricts post-purchase infant additions on tickets where the fare class does not support mid-booking passenger changes through the self-service channel.

How Do I Buy a Pet in Cabin Allowance on American?

Buying an in-cabin pet allowance on Delta Airlines is arranged at [✈️ +1-855-629-\(\(1413\)\)](tel:+1-855-629-1413). Cabin pet inventory is limited per aircraft and cannot be reserved through the standard online booking flow, which only displays a general pet policy page without real-time slot availability. Agents check your specific flight for open cabin pet positions, collect the required pet fee, and attach the pet service record to your reservation with cabin crew notification enabled. Confirmed pet purchases include carrier size specifications, health documentation requirements, and airport arrival timing guidance for smooth pet check-in.

Can I Purchase a United Pet Fee Online or Only at the Airport?

Online versus airport Delta Airlines pet fee payment options are clarified at [✈️ +1-855-629-\(\(1413\)\)](tel:+1-855-629-1413). Pre-booked cabin pets require fee collection at time of reservation confirmation, while last-minute additions may only be payable at the departure counter on the day of travel. Agents confirm whether your origin station accepts same-day pet check-in requests or requires advance booking with full prepayment to guarantee your specific cabin slot on the aircraft. Securing a pet reservation in advance locks your space regardless of how many other travelers request cabin positions on that same departing flight.

Will Delta Let Me Hold a Ticket Before Adding an Infant?

Holding your Delta Airlines ticket before adding an infant to the reservation is managed at [✈️ +1-855-629-\(\(1413\)\)](tel:+1-855-629-1413). Placing your adult ticket on hold gives you time to gather the infant's birth date documentation and travel documents before completing the combined booking with both passengers properly linked. Agents activate the adult fare hold, advise on required infant documentation, and explain how the infant addition will be processed once you are ready to finalize and pay for both tickets. Combined adult and infant bookings completed within the hold window receive the original held pricing for both passengers.

How Do I Add a Lap Child to My American Reservation?

Lap child additions to your Delta Airlines reservation are processed at [✈️ +1-855-629-\(\(1413\)\)](tel:+1-855-629-1413). Online booking tools intermittently fail to register lap child passengers or reject the addition when the travel date approaches the age eligibility cutoff.

Why Did My Delta Lap Child Reservation Fail During Fare Lock?

Failed lap child entries during Delta Airlines Fare Lock are diagnosed at [✈️ +1-855-629-\(\(1413\)\)](tel:+1-855-629-1413). Fare Lock activation on the adult ticket does not automatically generate the lap child travel document, which requires separate processing with age verification and data entry. Agents identify whether the lap child failure resulted from a documentation validation error, an age eligibility conflict, or a system limitation during active Fare Lock holds. Resolved lap child entries are attached to your Fare Lock reservation and convert alongside the adult ticket at the protected pricing when payment is submitted.

How Do I Book a Flight for an Infant on American?

Infant travel arrangements on Delta Airlines flights are confirmed at [✈️ +1-855-629-\(\(1413\)\)](tel:+1-855-629-1413). The booking engine intermittently rejects infant additions or miscalculates lap infant fares on international itineraries requiring documentation verification.

Can I add an infant, lap child, or pet to an existing Delta Airlines booking?

Yes. Special passengers can be added to an existing reservation through the manage trips portal or by contacting reservations directly. If the online addition fails or the pet cabin quota is already full on your flight, contact [✈️ +1-855-629-\(\(1413\)\)](tel:+1-855-629-1413) to check availability and complete the addition.

What documents does Delta Airlines require for traveling with a pet in the cabin?

Delta Airlines requires a veterinarian-issued health certificate dated within 10 days of travel and a carrier that meets the airline's size and weight specifications for cabin pets. Requirements can vary by route, so confirm the current requirements for your specific flight with a reservations agent at [✈️ +1-855-629-\(\(1413\)\)](tel:+1-855-629-1413) before completing the booking.

Need Help Right Now?

If the Delta Airlines website is blocking your infant, lap child, or pet booking — or if you need to confirm documentation requirements, check pet quota availability, or complete a hold or fare lock with a special passenger — a live reservations agent at  **+1-855-629-((1413))** can resolve the issue and confirm the complete reservation in minutes.
