Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: https://ods.rutgers.edu/students/documentation-guidelines. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the registration form (https://webapps.rutgers.edu/student-ods/forms/registration).

Course Description

Learning Goals

- 1. Provide an overview of NJSL Standards for writing and assessment tools.
- 2. Provide a foundation for understanding the different types of writing and different purposes.
- 3. Provide an understanding of the process and production of writing including technology use.
- 4. Develop a community of practice to foster collaborative peer editing and sharing.
- 5. Develop the skills necessary for research writing and citation of resources.
- 6. Overall, to apply the contemporary methods and theories for developing the Writer's Workshop model.

The course addresses the following New Jersey Professional Teaching Standards:

Standard Three: Learning Environments. The teacher works with others to create environments

that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

i. Performances:

2) The teacher develops learning experiences that engage learners in collaborative and self-directed learning and that extend learner interaction with ideas and people

locally and globally;

ii. Essential Knowledge:

- 1) The teacher understands the relationship between motivation and engagement and knows how to design learning experiences using strategies that build learner self-direction and ownership of learning;
- 2) The teacher knows how to help learners work productively and cooperatively with each other to achieve learning goals;

iii. Critical Dispositions:

- 3) The teacher is committed to supporting learners as they participate in decision making, engage in exploration and invention, work collaboratively and independently, and engage in purposeful learning; and
- 4) The teacher seeks to foster respectful communication among all members of the learning community.

Standard Four: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches, particularly as they relate to the Common Core Standards and the New Jersey Core Curriculum Content Standards and creates learning experiences that make these aspects of the discipline accessible and meaningful for learners to assure mastery of the content.

i. Performances:

- 1) The teacher effectively uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner's achievement of content standards;
- 7) The teacher uses supplementary resources and technologies effectively to ensure

accessibility and relevance for all learners;

iii. Critical Dispositions:

1) The teacher realizes that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. He or she keeps abreast of new ideas and understandings in the field;

Standard Five: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

i. Performances:

1) The teacher develops and implements projects that guide learners in analyzing the complexities of an issue or question using perspectives from varied disciplines and cross-disciplinary skills;

ii. Essential Knowledge:

4) The teacher understands how to use digital and interactive technologies for efficiently and effectively achieving specific learning goals;

iii. Critical Dispositions:

2) The teacher values flexible learning environments that encourage learner exploration, discovery, and expression across content areas;

Standard Six: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in examining their own growth, to monitor learner progress, and to guide the teacher's and learner's decision-making.

i. Performances:

- 4) The teacher engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress toward that work:
- 5) The teacher engages learners in multiple ways of demonstrating knowledge and skill as part of the assessment process;

Standard Eight: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

i. Performances:

7) The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information;

ii. Essential Knowledge:

- 3) The teacher knows when and how to use appropriate strategies to differentiate instruction and engage all learners in complex thinking and meaningful tasks;
- 4)The teacher understands how multiple forms of communication (oral, written, nonverbal, digital, and visual) convey ideas, foster self-expression, and build relationships;
- 5) The teacher knows how to use a wide variety of resources, including human and technological, to engage students in learning; and

iii. Critical Dispositions:

3) The teacher is committed to exploring how the use of new and emerging technologies can support and promote student learning.

Description of activities

<u>Participation in Online Classes:</u> The course is designed in a module format which consists of 6 major sections listed below. Each module is one week of study. Students are asked to login to Canvas three or more times per week and to check the announcements every time. Please contact me immediately if you are having technology issues that you cannot resolve so that you can be helped.

<u>Class Meetings</u>: The course will meet online. The course may offer, as needed, optional synchronous (same-time/online) live meetings with dates to be listed on the Announcement page in Canvas (https://canvas.rutgers.edu/). These meetings will be recorded and students may review the content at a convenient time. During our meeting time, we will participate in varied synchronous technologies including chat and video conferencing.

<u>Course Component Assignments</u>- Each module will have three active-learning components:

- 1. Writing Responses which relate to the assigned readings (50 Percent of Grade).
- 2. **Discussions** that pertain to the topics learned and require collaboration with classmates (25 Percent of Grade). Discussions are posted in Canvas.
- 3. **Activities and Applications** for each module that permit guided practice of the theories in the modules plus use of technologies that can be integrated into your teaching (25 Percent of Grade).

Assignments should be uploaded into the Canvas website unless specified. There will be a loss of credit for work not turned in by the due date.

Academic integrity: Make sure that you provide proper citations for all materials that you use in your lesson and unit plans. Any violation of academic honesty is a serious offense and is therefore subject to an appropriate penalty.

Refer to http://academicintegrity.rutgers.edu/integrity.shtml for a full explanation of policies.

Technology Concerns- New technologies will be modeled throughout the course. As is the case with technology, it is possible that the technologies may not work due to Internet availability and other factors. It is always advisable to have a backup plan if the technology does not work as expected. You are not expected to become a technology wizard from this course. The overall goal is for you is to have a comfort and ease in integrating technology into your lessons.
